What is PhotoPrintMe?

Photo Print me!

PhotoPrintMe is a photo printing solution that gives to customers access to a wide variety of products and formats through a mobile device. An access to an online catalogue to create photographic products starts it all. Where can they access it from? From your own shop or anywhere else (home, office, etc...).
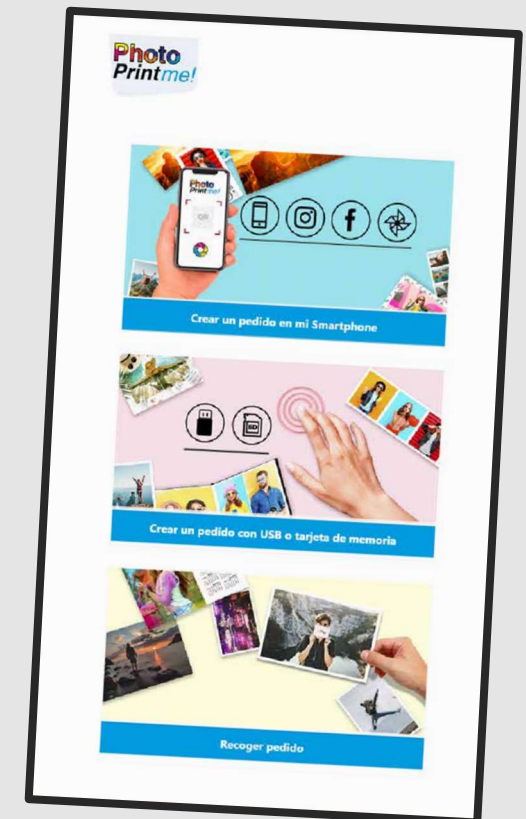

Only Internet connection is required, so simple like that!

Including advanced features like online payment or home delivery is a perfect solution for 24h photo printing service available in your store or business. And easy to integrate in your website.

PhotoPrintMe is a cost-effective photography service you can offer in your store.

Why PhotoPrintMe station?

PhotoPrintMe Station PPM210 is specifically designed for a full PhotoPrintMe performance in the store, to cover the several configurations that shop operator may need: order processing, or just order collection, or both of them. Includes the PhotoPrintMe Station software, with local and remote functions to deliver key features, for both shop operator and end user, for a great photo printing service in the store.

For shop operators

PhotoPrintMe Station PPM210 allows you to easily configure the kind of service (order, collect or both) you want to set up in the store.

Allows you to operate with your already existing Citizen CX-02, CX-02W and CY-02 to provide photo printing management advanced features in the store, such as:

- **High throughput/multiformat (more than one printer)**

- **Local Error Checking management**

- **Remote capabilities:**
  Support, Management, Settings and Updates.

- **Multiple printer models compatibility for PhotoPrintMe products printing:**

Citizen CX-02   Citizen CX-02W   Citizen CY-02

For customers in the store

Allows to easily create PhotoPrintMe Orders in store from USB/SD Cards and pendrives.

Order creation with PhotoPrintMe store service. Collection of the already processed order
