A PHOTOPRINTME DEDICATED DEVICE

PhotoPrintMe Station PPM215V is a dedicated device for PhotoPrintMe use in the store, in adesktop format based. Incorporates a newsoftware PhotoPrintMe Station that combines local functions with PhotoPrintMe catalogue functions, to provide a fully operational PhotoPrintMe service in the store, including cardreader as photo source(SD cards, pendrives), besides smartphone operation.
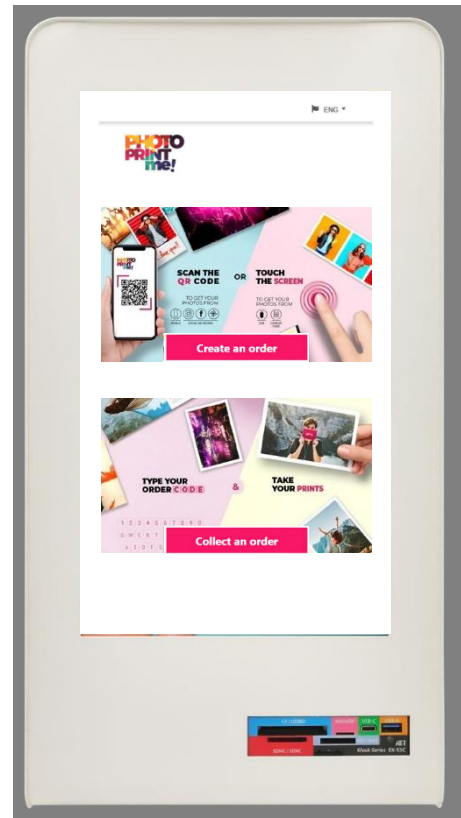

WHAT IS PHOTOPRINTME?

PhotoPrintMe is a photo printing solution that gives to customers access to a wide variety of products and formats through a mobile device. An access to an online catalogue to create photographic products starts it all. Where can they access it from? From your own shop or anywhere else (home, office, etc…).

Only Internet connection is required, so simple like that!

Including advanced features like online payment or home delivery is a perfect solution for 24h photo printing service available in your store or business. And easy to integrate in your website.

PhotoPrintMe is a cost-effective photography service you can offer in your store.
